

Shawn Stevens
Organizer's Report
February 7, 2021

During the month I have been following up on some leads with potential members as I continue to talk with them by phone and text. Very few people want to meet in person, but the Covid-19 numbers seem to be coming down. It would be nice to have things return to normal so you can at least talk to a person face to face.

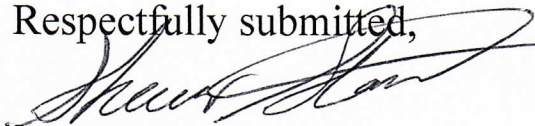

I have been working with Business Agent Jim Marks on organizing a bus yard and talking with those employees by phone and text as well. We hope to have some news soon. I also attended a meeting with Business Agent Jim Marks for our new group in Gardner to go over some details in the contract that was being proposed. Business Agent Jim Marks is doing a great job with this contract and I think these new members are going to be very happy.

I have been going to some delivery service yards that are being built; some of which are becoming operational as you read this report. This has been a problem and now it has become a bigger problem in our State as more facilities are being built at a record pace. We are addressing the problem and are working with other Locals and the Joint Council on this. It is going to require help from all our members and all our Local Unions to beat this corporate greed. We will be reaching out to our members for some help soon.

Calls are starting to come in from potential members and we are following up on every lead that comes in. If you have any leads, please reach out to any one of us. Members are the best source for leads. So please, get involved. It is your Local, so help it grow.

Thank you!

Respectfully submitted,

Shawn Stevens
